

# Friday Report – overview and contents

The pages in The Friday Report are about adult offenders in Georgia's prisons and jails. They contain statistical snapshots and trends in the populations and movements of offenders in the state prison system, on probation, on parole, and in local jails. Information comes from databases of the Georgia Department of Corrections (GDC) and the Board of Pardons and Paroles, and from data provided by local jailers. Information is summarized into tables in the GDC/Parole Data Warehouse, and is extracted into these pages each Friday. Pages are organized according to the table that supplied the data.

The Monthly Research Table, named "MO_RESRCH" or simply "MO", contains data about state prisoners, grouped into statistically interesting categories. The table contains one record per month, from January 2000 to the present. Despite its being "monthly", it is updated weekly, because some data trickles in for several weeks before it becomes stable history.	
Page	Contents
MO-01	Clemencies and maxouts. Monthly graph from 2000 to present shows the monthly departures from prison via actions by the Georgia Parole Board (clemencies), and via service of 100% of the court ordered sentence (maxouts)
MO-02	48 months of releases. Table shows counts and percentages of releases via clemencies and maxouts, with and without probation to follow, for each of the past 48 months.
MO-03	Methamphetamine. Monthly graph from 2000 to present shows admissions, departures, population, and percent of population of inmates with a current offense of methamphetamine possession, sale, manufacturing, or trafficking, and the changing racial composition of the methamphetamine population.
MO-04	Non-violent first incarcerants. Monthly graph from 2000 to present shows admissions, departures, population, and percent of population of inmates without violent or sex crimes, who are serving their first Georgia felony incarceration.
MO-05	Seven Deadly Sins. Monthly graph from 2000 to present shows admissions, departures, population, and percent of population of inmates convicted of kidnapping, armed robbery, rape, aggravated sodomy, aggravated sexual battery, and aggravated child molestation, for whom especially severe penalties are prescribed.
MO-06	48 months of inmate subpopulations. Table shows number and percentage of white and non-white inmates with methamphetamine offenses, and non-violent first incarcerants, and inmates convicted of the Seven Deadly Sins.
MO-07	Inmate age overview. Line graph shows the average age of the inmate population, by month from 2000 to the present. Pie chart shows the number of currently active inmates in their teens, twenties, thirties, forties, fifties, and age sixty+.
MO-08	Counts by age group. Graphs show the count, by month from 2000 to the present, of inmates in their teens, twenties, thirties, forties, fifties, and age sixty+.
MO-09	Percentages by age group. Graphs show the <i>percentages</i> , by month from 2000 to the present, of inmates in their teens, twenties, thirties, forties, fifties, and age sixty+.
MO-10	48 months of inmate ages. Table shows average age of the standing population, and counts and percentages of teens, twenties, thirties, forties, fifties, and sixty+, for each of the past 48 months.

# Friday Report – overview and contents (*continued*)

The MSR Table is based on the Management Summary Report (MSR), a snapshot report posted each week in GDC's Scribe database. MSR\_RESRCH gathers that data into weekly trends, with one record for each Friday since March 20th, 2009.

Page	Contents
MSR-01	All housed offenders. Weekly graph from March 20, 2009 to present, showing counts of inmates in state prisons, transitional centers, county prisons, private prisons, inmate boot camps, parole revocation centers, probation Residential Substance Abuse Treatment (RSAT), probation boot camps, probation detention centers, plus the inmate jail backlog and probationers in jail waiting for state facilities.
MSR-02	Probationers in jail. Weekly graph from March 20, 2009 to present, showing counts of probationers in local jails awaiting placement in probation detention centers, probation RSAT centers, and probation boot camps.
MSR-03	State inmates in jail. Weekly graph from March 20, 2009 to present, showing counts of state inmates in local jails awaiting placement in state prison facilities – including those who have not yet been assigned to a diagnostic center, those whose transportation has been delayed for some reason, and those who are ready to be picked up.
MSR-04	Female state inmates in jail. Weekly graph from March 20, 2009 to present, showing counts of female state inmates awaiting placement in a state prison for females.
MSR-05	52-week table: housed offenders. Data for each of the past 52 weeks, showing total prison inmates, parolees in revocation centers, probationers in RSAT/boot camp/detention centers, inmate jail backlog, probationers in jail waiting for facilities, with subtotals.
MSR-06	52-week table: state prisoners. Data for each of the past 52 weeks, showing inmates in state prisons, transition centers, county prisons, pre-release centers, private prisons, and inmate boot camps, with subtotals.
MSR-07	52-week table: waiting in jail. Data for each of the past 52 weeks, showing probationers waiting for detention centers, RSAT, and boot camp; and state prisoners not yet assigned to diagnostic centers, in admission process, with delayed transport, and ready for pickup, with subtotals.

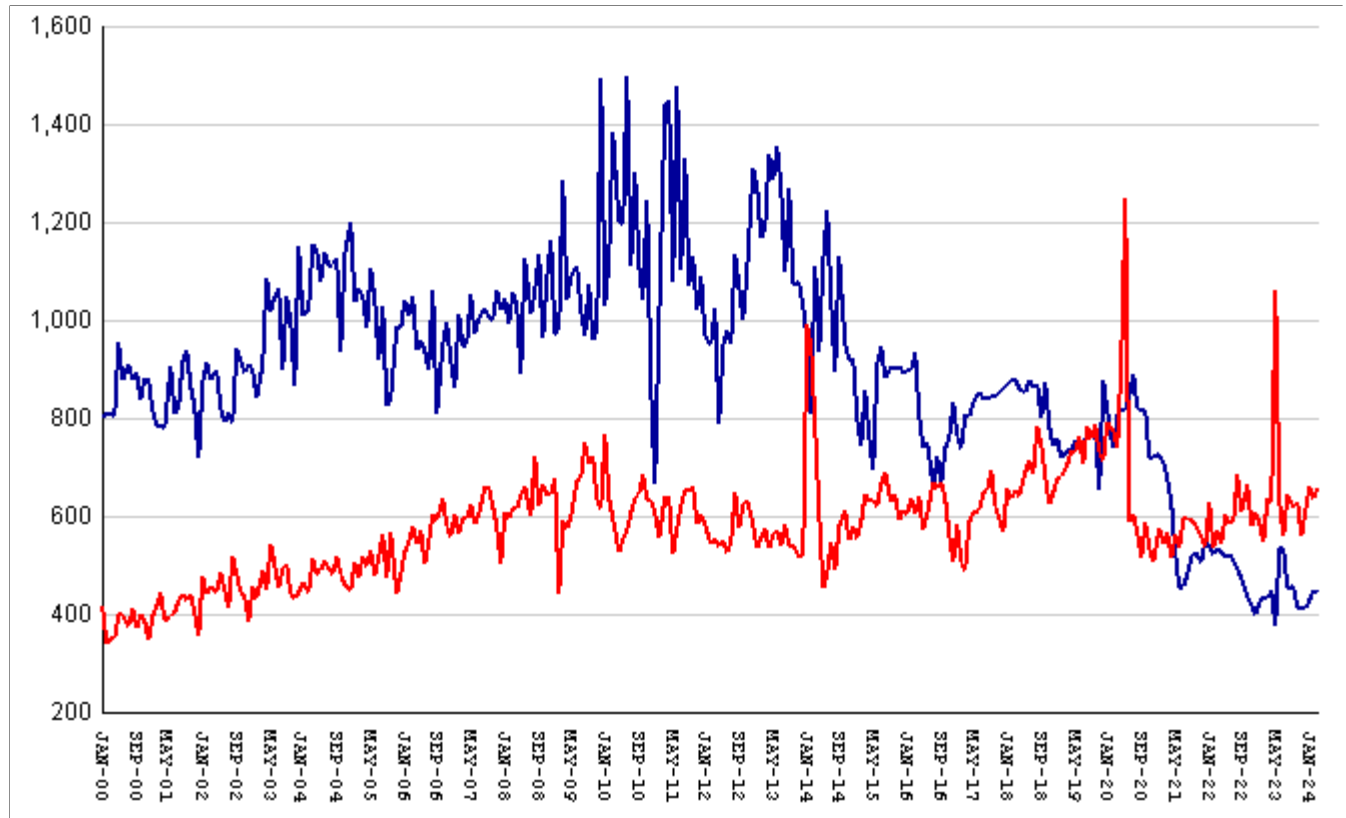

The DCA table consists mainly of data submitted from each of Georgia's 140+ local jails, via the Georgia Crime Information Center (GCIC) to the Georgia Department of Community Affairs (DCA), which publishes its [County Jail Inmate Population Report](#) on its web site each month. GDC has collected summary statewide data from this report every month since its inception in January, 1993. The table also contains the inmate jail backlog as computed by GDC for the last Friday of each month, for comparison with the jailers' count of state inmates. Although nominally a monthly table, DCA\_RESRCH is updated weekly to insure that the DCA data is correctly synchronized with the GDC jail backlog data.

DCA-01	Jail composition. Monthly graph from 1993 to the present shows trends in the numbers of unsentenced inmates, state inmates, county inmates, and other inmates.
DCA-02	Two views of jail backlog. Monthly graph from 1993 to present compares jailers' count of "state inmates" with GDC's count of the "inmate jail backlog", and explains that both are valid counts of different phenomena.
DCA-03	48-month table: local jails. Data from Georgia jailers for each of the past 48 months, showing total jail population, capacity, utilization, and number and percent of unsentenced inmates, state inmates, county inmates, and other inmates.

## Releases by clemency and maxout, Jan-2000 to Mar-2024

There are two main ways of being released from a Georgia prison -- by actions of the Board of Pardons and Paroles ("Clemencies") and by service of 100% of the court-ordered sentences ("Maxouts"). "Clemency" includes paroles, reprieves, commutations, and transfer to other confinement prior to expiration of sentence.

"Other Releases" includes deaths, and sentences modified or overturned by the courts. Clemencies and maxouts may or may not be followed by periods of probation.

## Inmates with meth crimes, by month, Jan-2000 to Mar-2024

Methamphetamine is one of the most addictive drugs ever known. At first it induces intense euphoria, but with continued use causes severe depression and physical deterioration, including the dental catastrophe known as "meth mouth".

Georgia's meth epidemic peaked in 2007-2008, then declined, but is again growing. It started in the predominantly white northern counties, with blacks accounting for only about 5% of convictions. But black usage has expanded, and now accounts for about 15% of convictions.

Methamphetamine admissions

fall by 28 from 274 to 246

Methamphetamine releases

RISE BY 8 from 270 to 278

Methamphetamine population

falls by 32 from 7556 to 7524

Meth white population

falls by 42 from 5361 to 5319

Meth non-white population

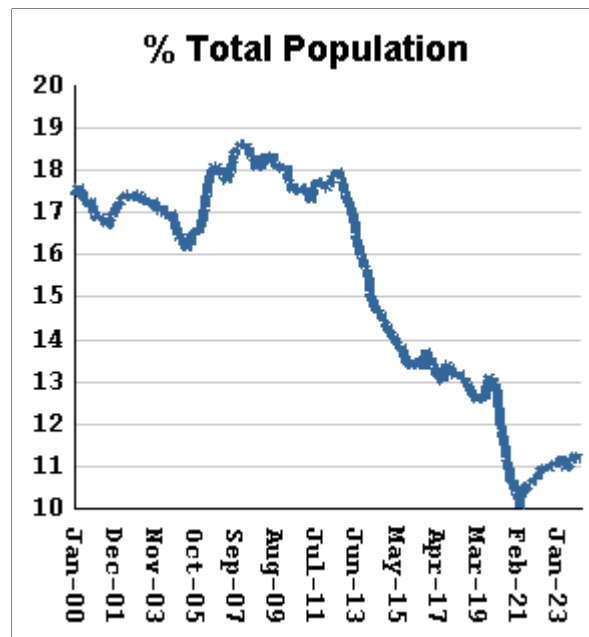

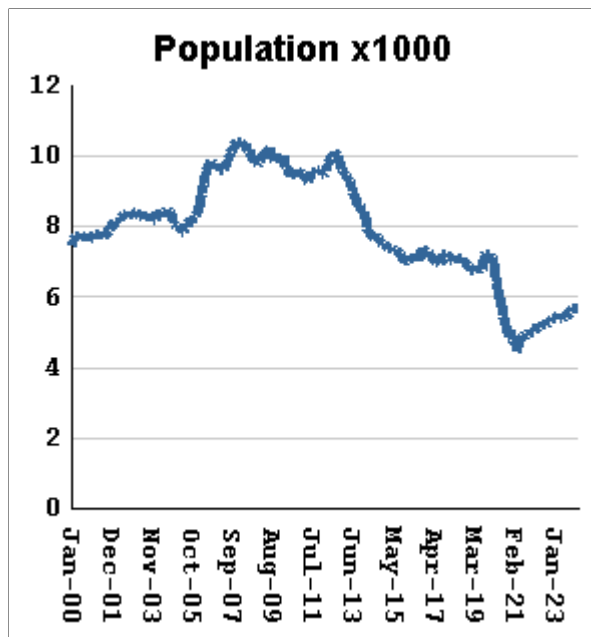

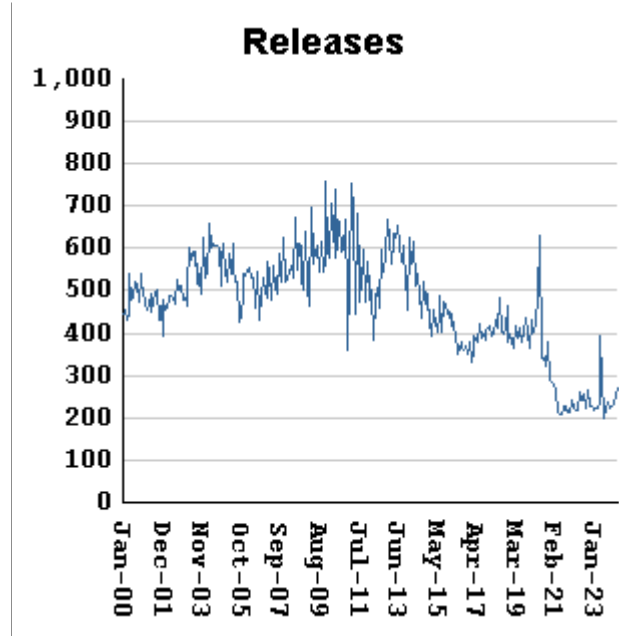

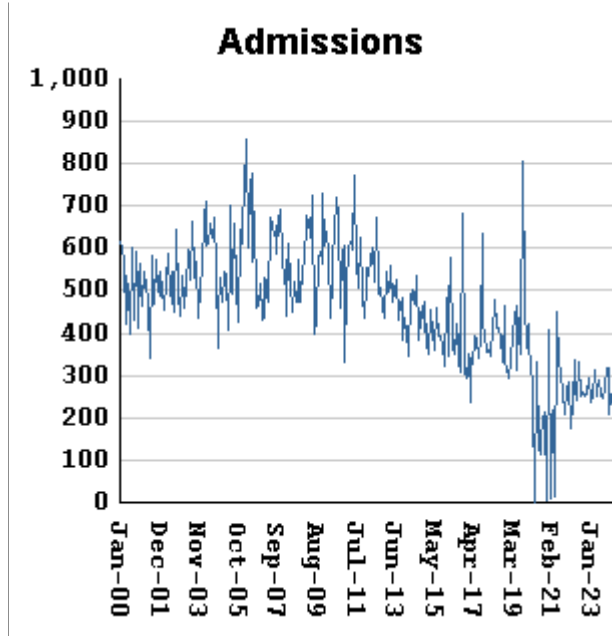

RISES BY 10 from 2195 to 2205

Percent meth inmates who are non-white

RISES BY .26 % from 29.05% to 29.31%

## Non-violent first-incarcerants, by month, Jan-2000 to Mar-2024

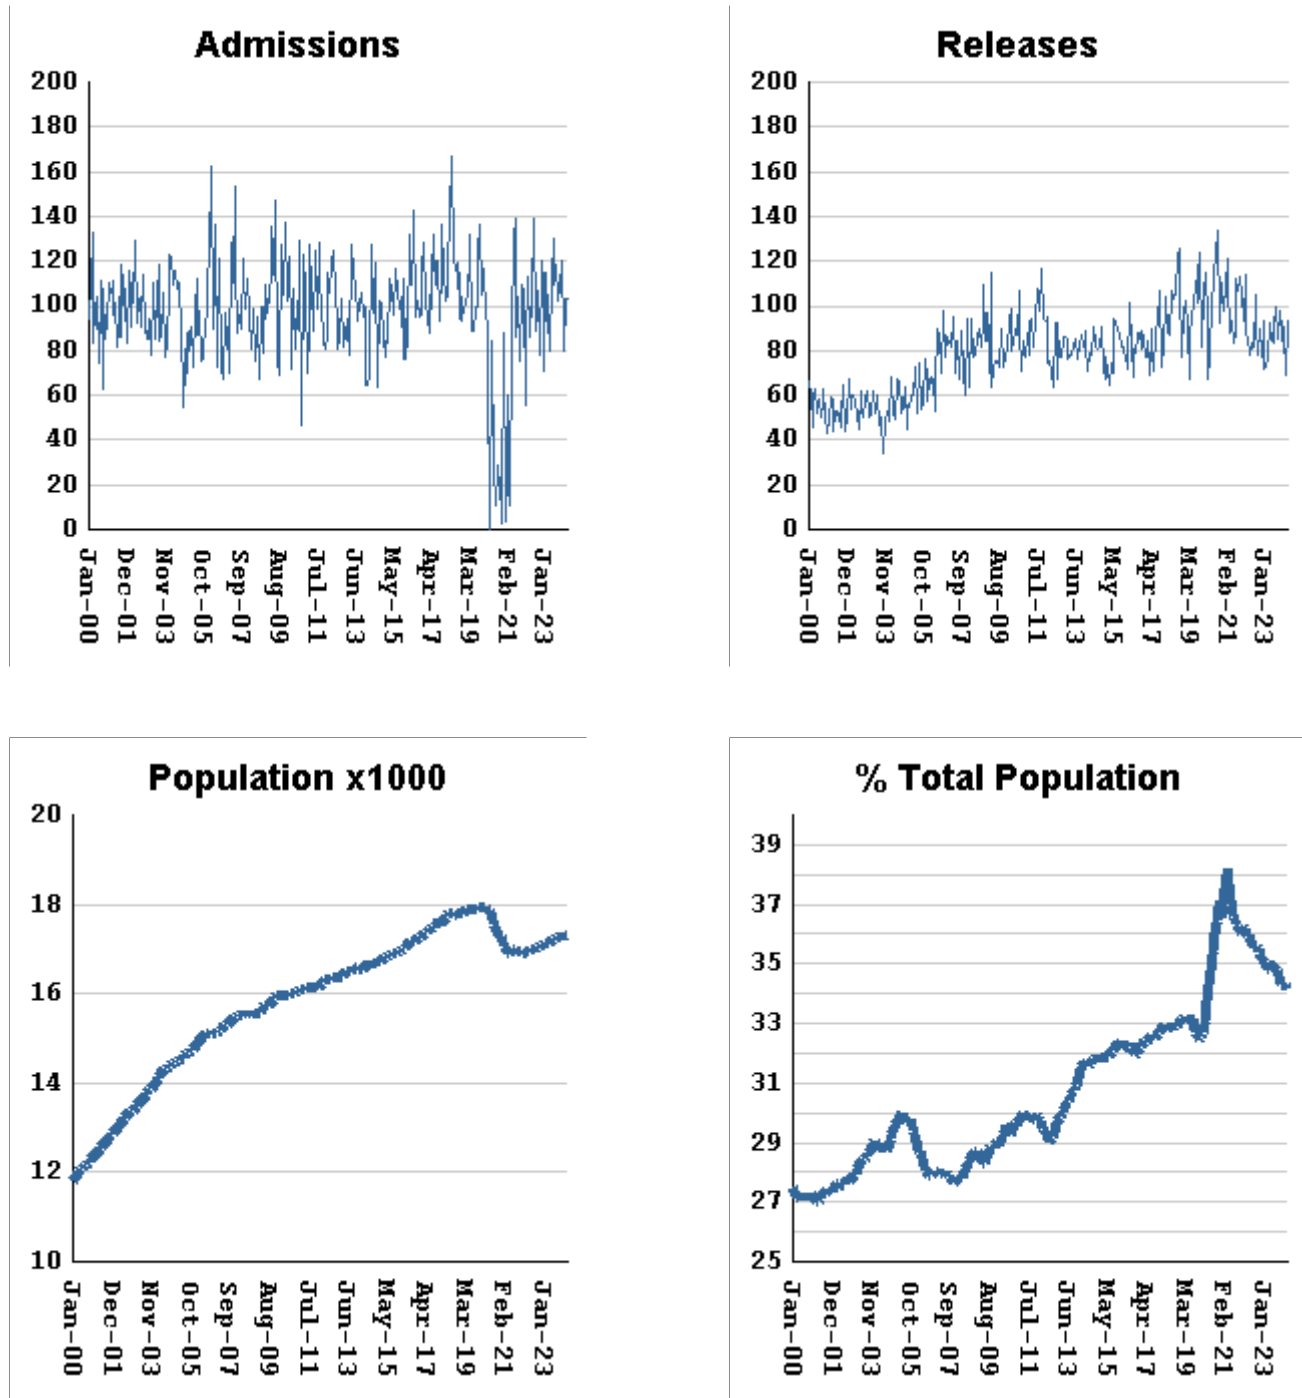

Historically, about one in six Georgia prison inmates has been a first-time incarcerant with a non-violent crime. In 2012 Georgia passed HB1176, which aimed to curb the growth of prison population by steering the least dangerous, least hardened offenders away from prison through pre-trial intervention, diversion, drug courts and treatment programs, and raising the dollar thresholds that define property felonies. The expectation is that over time, these measures will reduce the percentage of first-time non-violent incarcerants in prison.

Non-viol/1st-Incar admissions	RISE BY	46	from	235	to	281
Non-viol/1st-Incar releases	RISE BY	18	from	254	to	272
Non-viol/1st-Incar population	RISES BY	9	from	5659	to	5668
Non-viol/1st-Incar % of total population	falls by	.02 %	from	11.2%	to	11.18%

# "Seven Deadly Sins" by month, Jan-2000 to Mar-2024

Tough legislation in 1995 imposed mandatory ten-year minimum terms for kidnapping, armed robbery, rape, aggravated sodomy, aggravated sexual battery, and aggravated child molestation, and a minimum of 25 years for murder. A second conviction resulted in life without parole. As predicted, longer prison terms caused population to climb steeply for about a decade. It then began to level off, as releases started catching up with admissions. The 2008 dip in percentage of total population (bottom right) was caused by the surge of methamphetamine convictions (Page MO-03). Note: these graphs include inmates convicted before 1995.

"Seven Deadly Sin" admissions	fall by	0	...	103	at	103
"Seven Deadly Sin" releases	RISE BY	24	from	69	to	93
"Seven Deadly Sin" population	RISES BY	10	from	17321	to	17331
"Seven Deadly Sin" % of total population	falls by	.09 %	from	34.27%	to	34.18%

## Overview of inmate age statistics, Jan-2000 to Mar-2024

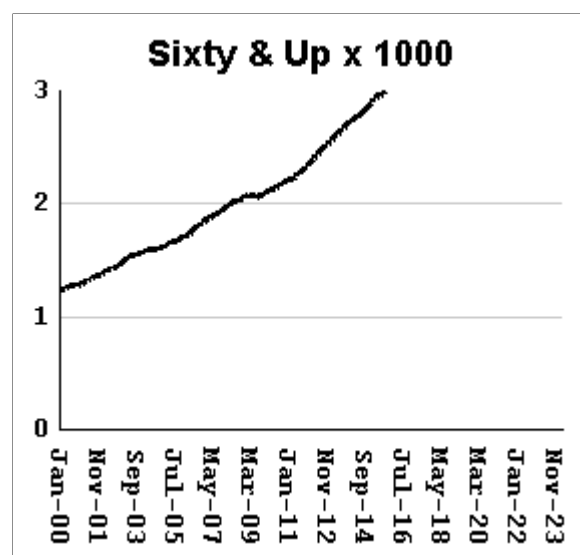

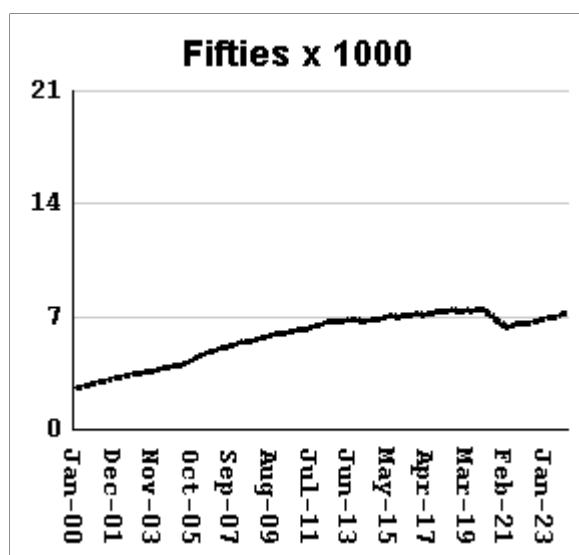

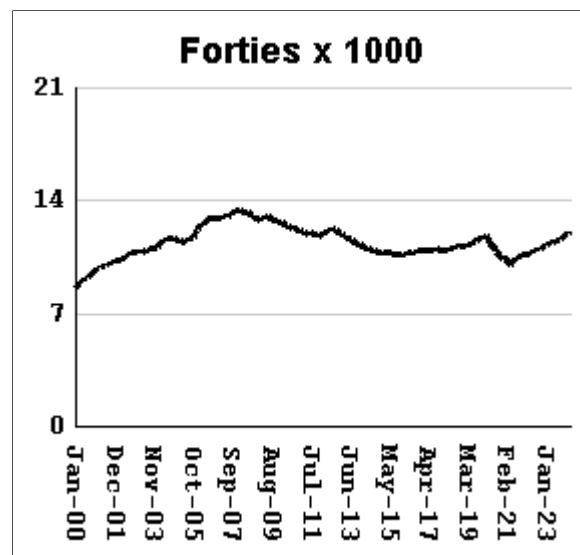

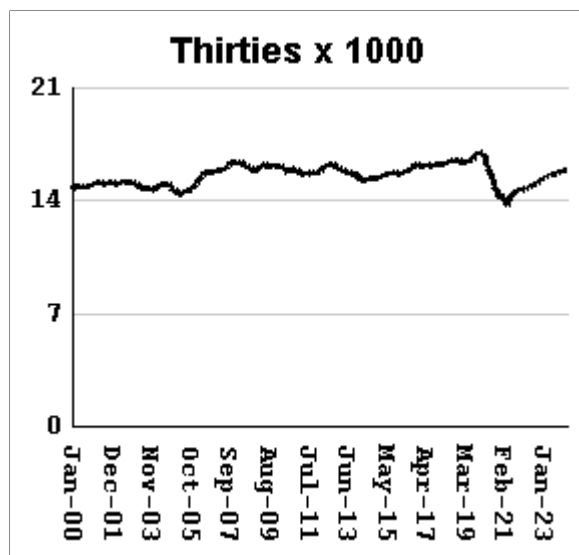

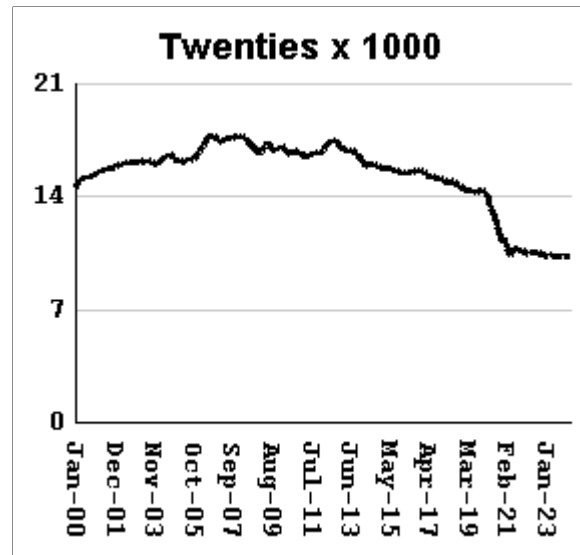

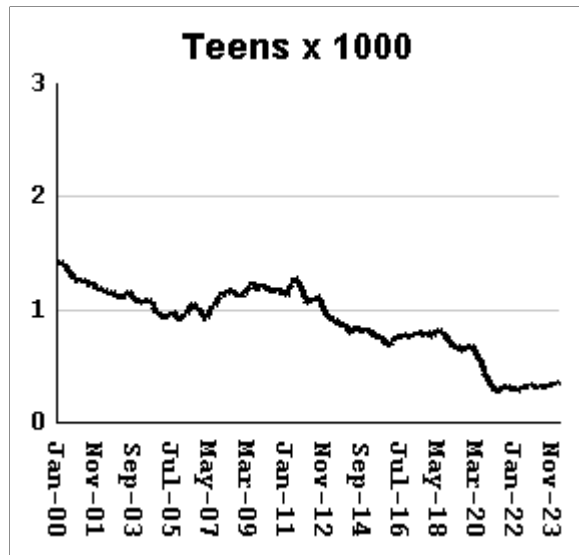

The "aging inmate population" is a concern in correctional systems throughout America, including Georgia. Here, the increase in inmate age is the result of several factors. Teenagers have been steered away from prison by increased usage of probation and other alternatives, at least for their first convictions. And there has been a surge of middle-aged male sex offenders due to the expanding "It's OK to tell" ethos. But most importantly, more severe sentence lengths and release policies have greatly increased the length of time that most offenders -- especially violent ones -- spend in prison, thereby increasing their average age.

## Probationers in jail awaiting placement in facilities

March 20, 2009 through April 26, 2024

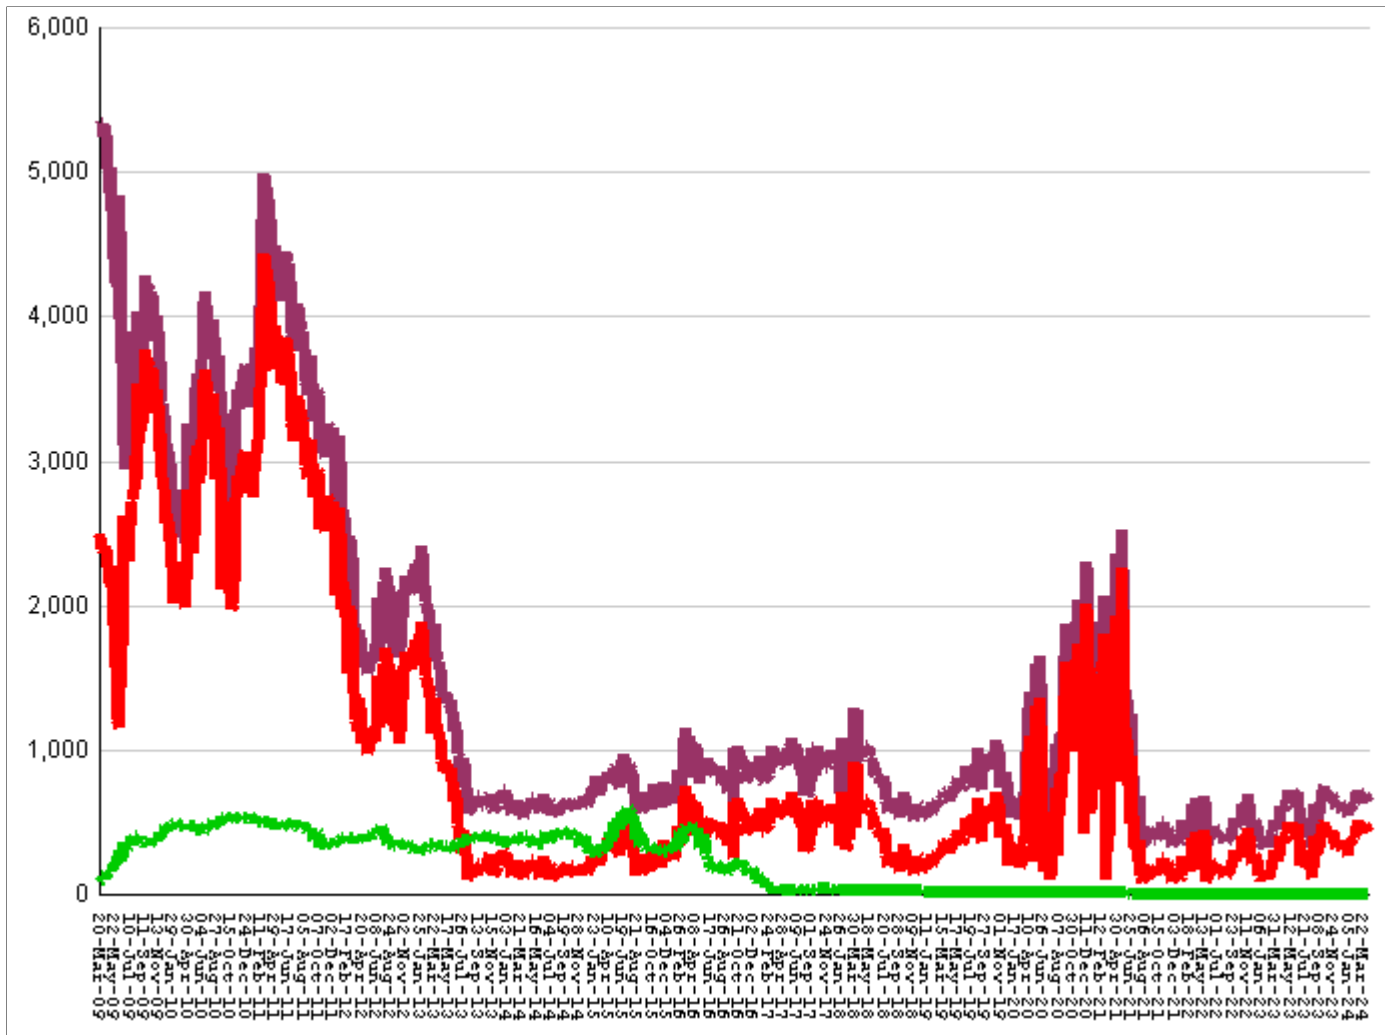

This graph shows, for each Friday since March 20 2009, the number of sentenced felony probationers who were waiting in jail for placement in facilities that GDC operates for housing probationers -- detention centers, probation residential substance abuse treatment (RSAT) centers, and probation boot camps. Counts include both those offenders sentenced directly from court, and those whose street probation was revoked.

## State inmates in jail awaiting placement in facilities

March 20, 2009 through April 26, 2024

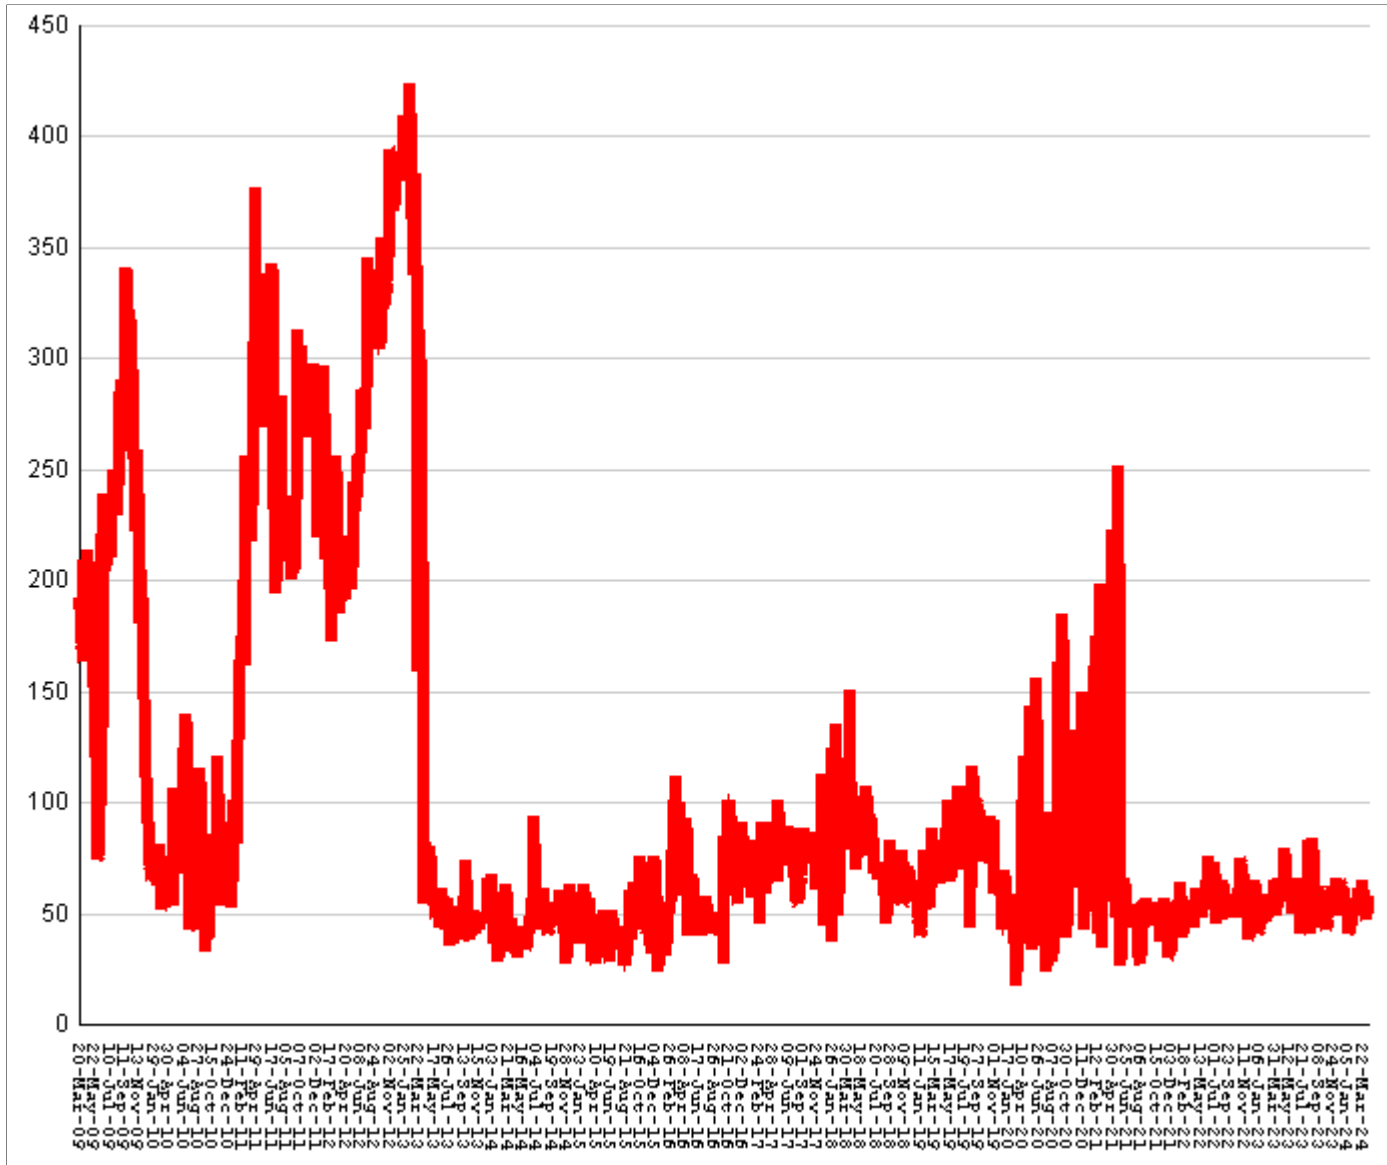

This graph shows, for each Friday since March 2009, the number of prisoners, probationers, and parolees in local jails who have been sentenced or revoked to state prison and whose documents have been received and verified by GDC. Most are almost immediately assigned to a diagnostic center, and are designated as in "admission processing". Of those a few hundred may be in the "transportation delayed" category because there is no room in the assigned diagnostic center, or because the inmate is being held for medical reasons, or for other court proceedings, or other reasons. Those remaining are "ready to be picked up".
