

Firefighter Program

GEORGIA
DEPARTMENT OF CORRECTIONS

MISSION

To protect Georgians by operating secure facilities and providing opportunities for offender rehabilitation.

Tyrone Oliver, Commissioner

Alan Watson, Chief of Staff

Ahmed Holt, Assistant Commissioner Facilities Division

The GDC Fire Services unit operates 19 fire stations in state prisons and six in county prisons across Georgia. In addition, seven boot camps and probation detention centers have trained wildfire teams who assist the Georgia Forestry Commission. Inmate firefighters are certified through O.C.G.A. Title 25 and can be hired as career firefighters upon release.

HISTORY

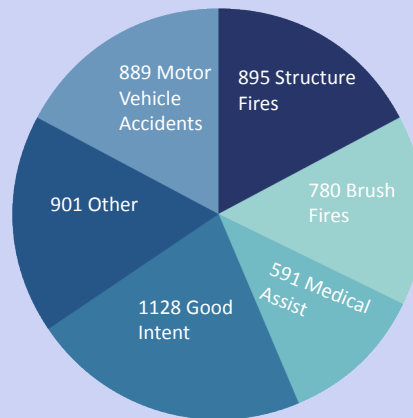

Chief Buddy Brooks established the Firefighter program in 1963 at the Georgia Industrial Institute, now Lee Arrendale State Prison.

At that time, the program consisted of one fire station, eight inmate firefighters, and one part-time staff member.

The Firefighter program provides fire protection to state property and 51 local counties and cities surrounding the 25-state and county prisons across Georgia.

IMPACT

EMERGENCY RESPONSES IN 2021 5,184 RESPONSES

The Inmate Firefighter Program has a significant impact on each community they serve. Many communities throughout Georgia do not have paid firefighters; therefore, the Inmate Firefighters are a no-cost, highly skilled firefighting team who act as the sole protection for the community. The team also serves as emergency medical responders and augment single, small or limited community fire stations & services. The Inmate Firefighters also assist with lowering property insurance ratings for the communities they serve.

PROGRAM
