

PRIVATE PRISONS

The Georgia Department of Corrections (GDC) has contracts with two private companies, The GEO Group, Inc. and Core Civic, that house 5,376 state offenders. In 1997, the GDC entered into a contract with CCA to build and operate private prisons in Alamo, Millen, and Nicholls. At each facility, the Department has a full-time Private Prison Monitor on-site that oversees the facility's operations to ensure that all contract conditions are met and that the facility operates with a continuous focus on sanitation, safety, and security. Offenders housed at these facilities work on full-time details and are afforded the opportunity to participate in a wide variety of educational classes and counseling programs.

MISSION

To protect Georgians by operating secure facilities and providing opportunities for offender rehabilitation.
